Is Allegation Of Wolfe In Cross Petition

Cites Note And Mortgage Deed He Holds

Against Property Concerned In Partition Action

Alexandria Man Failed To Receive Specified Timber

Other Notes From The County Court House

Albert I. Wolfe, one of defendants in the action for partition of Elizabeth Rightmire vs. Ellis Rightmire and others, has filed an answer and cross-petition in which he admits interest of plaintiff, together with that of Ellis and Abraham Rightmire, in the property, but denies that of any other of the defendants, save of his own which he declares is superior.

By way of cross-petition, answering defendant says that on June 26, 1888, Abraham and Ellis Rightmire, Lydia Rightmire, Ellen Hammon and John C. Hammon executed and delivered to George H. Roberts their promissory note for \$8,000, together with a mortgage deed on property owned by them in Butler and Union townships. Defendant says he purchased this note and deed from George H. Roberts.

He accordingly asks for an accounting, claiming the whole amount of the note is overdue and unpaid, together with a sale of the property and the establishment of his claims as superior. Clinton M. Rice is his attorney.

Didn't Get His Timber—

The petition of Julius C. Young vs. Elmer Sutton, filed by Stassel & Cornell, involves a land deal, states the Newark American Tribune.

It is related that on November 10, 1915, plaintiff entered into a deal to exchange property in Alexandria village for a forty-acre tract in Licking township, this county. As a part consideration the defendant was to deliver to him the timber for a barn and also timber to be used in the construction of a farm dwelling.

Plaintiff says that he performed his part of the contract, but that the defendant did not deliver the timber as agreed, and suitable for the farm barn or the dwelling house. Some inferior timber was delivered. He also complains that there were three hundred fence posts on the farm and included in the farm property and that the defendant hauled them, with building material, away and converted them to his own use.

He says he is damaged in the total sum of \$600 and asks judgment for that amount.

GOLDEN GOSSIP

RINGS SWEET FOR THE EARS OF EDITOR LEONARD

Title of Club In Knox County Provokes Editorial In Mansfield Shield, Praising The Name

Referring to the organization of women in Lock, Knox county, Wellington T. Leonard, editor of the Mansfield Shield has the following to say in Saturday's editorial column of the paper: In a neighboring county there is a club of women named the "Golden Gossips." The dictionary term of gossip is scandal or idle talk. Golden gossip has a good sound. It leaves the impression that when the members of this club meet there are no scandalous stories told affecting the good name of man or woman. It makes one think that in those club meetings reputations of men and women are not smirched and that mean, slanderous stories are not repeated with zest and listened to with raised eyebrows and willing ears.

"Golden gossip" make one think of talk that is not idle and is uplifting. It gives one the impression that nice things are said about people that will make their hearts sing when they hear what has been said about them.

TEMPLARS

OF CITY WISH TO UNITE WITH NEWARK AND ZANESVILLE SIR KNIGHTS IN A SPECIAL TRAIN TO TIFFIN IN OCTOBER.

A cordial invitation to attend the grand encampment, Knights Templars, of the state of Ohio at Tiffin next October was read at the regular meeting Friday night of Clinton Commandery, No. 5, of this city, and a committee appointed to ascertain if local Knights Templars can go in a body.

The committee will endeavor to arrange for a special train by suggesting to St. Luke's Commandery of Newark and the Zanesville Knights Templars that these two organizations unite with Clinton, the train to start at Zanesville early in the morning and pick up both Newark and Mt. Vernon men on its way.

SKELETON

PURCHASED AT AUCTION OF UNCLAIMED PACKAGES

Remains of Former Inhabitant of the Earth Greet Eyes of Startled Owner—Variety of Articles Bought, Many Splendid Investments

Spirited bidding attended the sale of unclaimed packages on the public square Saturday morning when the Adams Express Co. offered at auction numerous packages which have lain unredemmed in various of their offices. One man purchased a large package for \$1 and, on opening it, discovered the skeleton of some former inhabitant of Mother Earth. The same was addressed to a medical college.

A splendid buy was made by a man who expended \$2 for a package which contained an elegant imitation leopard skin winter lady's coat with lace trimmings.

Patent medicine was sold in large quantities, while the batch of unclaimed articles contained several automobiles.

The uncertainty of what was enclosed in the package and the gamble in buying merely on the basis of what the package looked as if it might contain furnished much amusement all morning.

GATHERERS

PROTEST AGAINST PROPOSED CHOP IN SALARIES AT MEETING HERE—PART OF A UNITED EFFORT.

At a meeting held recently by about twenty window glass gatherers who reside in the city, a resolution was introduced and unanimously carried protesting bitterly against the proposed cut in wages.

The local action is said to be a part of a united effort on the part of this particular division of glassworkers to maintain the present scale of salaries.

INITIATE CLASS

Mt. Vernon Tent of Maccabees initiated a class of four at its meeting Friday night.

COUNTY CUT OFF BY ICE COMPANY

Until There Is An Excess From City Supply

\$1 PER 100 OFFER REFUSED

Fredericktown Man Waits All Day And Is Turned Down Because Of Shortage—Break-Down In Plant Forces Drastic Action

With the neighboring county of Delaware unable to obtain anywhere near its desired quantity of ice, it behooves Knox county people and residents of Mt. Vernon to be very careful in their use of the same, according to Charles L. Mild, chief engineer of the Mt. Vernon Ice Co. who on Friday night stated that the local concern has been forced temporarily to cut off outside trade and will not even be able to supply the county for several days.

The plant in this city is capable of producing 35 tons of ice a day. This has been ample in the past to supply Mt. Vernon and Knox county, together with Millersburg, Utica and other places. Today, the demands of Mt. Vernon require the entire output.

"Many people must be using double the amount of ice they did last year," Mr. Mild remarked, and one man in his hearing acknowledged that his family was doing that this summer. A temporary break-down the past week cut down the output of the local plant, Mr. Mild stated, or else the county could have been supplied.

Mr. Mild said that a customer in Fredericktown spent all of Friday at the plant, leaving his wagon hitched there, in an effort to obtain some ice. At nightfall, he was refused with apologies and with promises of the blocks of frozen water either on Saturday or the first of the next week.

Another man from the Caves, near Millwood, was offering \$1 a hundred pounds for ice, but the plant was forced to turn this down, despite the profit there would be in accepting the bid. Local trade must be supplied first, Mr. Mild stated.

There is no immediate danger of a famine, Mr. Mild remarked, but if the hot weather keeps up, it is very much of a problem how long the county can be supplied with ice. The city customers will always be cared for, as long as the plant is producing ice.

STEEL

Causing Pain for Many Months Removed From Fletcher's Eye—Minute Metal Extracted With Magnetized Needle

After suffering for about 6 months from a severe pain in his right eye and consulting several physicians, Frank Fletcher who is employed as a machinist at the Hope foundry received relief Saturday morning when a local physician removed a piece of steel about 1-32 of an inch long from the place where it had become imbedded in the eye-ball.

Fletcher has suffered with pains in the injured eye for several months and had been examined several times to discover if there were any foreign object in it, but no cause for the trouble could be discovered until Saturday when a careful examination under the microscope showed the piece of steel, which was then removed by the use of a highly magnetized needle.

CLIPPING FROM SANDUSKY PAPER TELLS OF FRANK DARLING'S ELECTROCUTION—LEG "FROZEN" TO WIRE BY 2,000 VOLTS.

A clipping from one of the Sandusky papers telling of the accident in which Frank Darling lost his life last Tuesday afternoon in that city was received by Nin Darling, the father of the unfortunate man, Friday afternoon. The article follows:

"Horrors of death by electrocution were experienced Tuesday afternoon by Frank Darling, twenty-six, Central Union Telephone company lineman, residing at the Ideal hotel, Water street.

"Darling was removing wires from the top of a 40-foot pole at Wayne and Market streets at 1:20 p. m. It is believed that his head came in contact with a cable standard just above him.

"Darling's leg was 'frozen' to the wire on which he was working. Over 2,000 volts of electricity went through his body.

"It was ten minutes before Darling could be removed from the wire. In the meantime the gas company had shut off all the current in the city.

"Clem Promersberger, Youngstown, and Marvin Fullerton, Columbus, were among the linemen who were working with Darling.

"The man never recovered consciousness from the time he received the shock until he was pronounced dead at the police station at 2:50 p. m. The lungmaster was used in vain to induce respiration.

"Darling came to Sandusky from Mt. Vernon a year ago and has been employed both by the Sandusky Gas & Electric company and the Bell Telephone company."

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

USES LEAGUE AS VEHICLE

Rep. Candidate Invokes Local Herrick Organization

PRIME "BONE" OF CAMPAIGN

Supporters of Harry M. Daugherty in This County Not At All Pleased At Campaign Tactics of a Certain Man

Knox county boosters of Harry M. Daugherty (and there are many) in his aspirations for the nomination of United States senator, are dumb-founded and, incidentally peeved, over the act of a certain candidate for the Republican nomination for county recorder.

This man has allied himself with the local Herrick Voters' league, which as near as can be ascertained exists only on paper, the organization meeting having been the only assemblage of rooters for Myron.

Convinced of the strength of the man to whose league he belongs, this particular candidate sent out a large number of his personal cards, asking for support at the primaries, to various parts of Knox county on which he wrote in ink:

Member of Herrick Voters' League. "The prime bone-headed trick of the campaign," was the way one Republican characterized the act when asked his opinion of it.

This glaring act looms up, unquestionably, as the biggest "beef" pulled this year by any of the Republicans who are candidates for office, putting to shame hopelessly the act of one candidate in sending his cards to Homer, the act of another in campaigning in Morrow county, and that of a third, offering to organize a volunteer company from this city for Mexican war duty, the same to be composed of Republicans.

Some Republicans are wondering what is wrong with the men who are seeking to represent them in county office.
